Should you be a Friend of Five Rivers?

For more than forty years, the Friends of Five Rivers has provided educational programs to the community through the support of an extraordinary group of members, volunteers and donors. By becoming a member of Friends of Five Rivers, you become part of the collective voice of a community that recognizes the importance of this environmental treasure and its contribution to our quality of life. The strength of that voice is critical to an organization that relies on donations and grants to support its mission.

Although the Center is operated by New York State, the Friends operates independently of the State. Many of the services offered at Five Rivers would not be possible without the Friends of Five Rivers.

The 450 acres of protected green space at Five Rivers Environmental Education Center is utilized by over 100,000 visitors annually.
